About 136 tons of iron for the Road, consisting of Car wheels &c., have arrived at Green Buy, a portion of which, enough for present uses, will be brought here this Winter.

PROSPERITY OF FOND DU LAG.—No inlaud town in the State has had so certain and steady a growth. Its population at present numbers over three thousand, and is daily receiving accessions to the number. This state of things could not have lasted long, did not Fond du Lac enjoy very superior advantages. No town or city in the State has so commanding a position. It is the great central focus of the North—state made and mail routes diverging in every direction.—Commencing northerly, we find the Green Bay road, then making a circuit East, South and West, we find the Sheboygan, Milwaukee Madison and then making a circuit East, South and West, we find the Sheboygan, Milwaukee Madison and Watertown, Fort Winnelsgo, and Oshkosh roads—together with many others connecting with other places of less note—all centering at and diverging from this place. No town in the State commands by its position so large an area of country and abounding with so many advantages.—

Smoulan is True.—A singular circumstance is said to have occurred in South Canaden, New Jersey a short time since. An old and inveterate drunkard was bitten by a rattlessake; the drunkare was not injured in the least, but the snake coiled itself up and died from the effects of the liquor it imbibed.
